Table 26

JU03 - Many experts argue that it is becoming more expensive to fund the NHS because of increasing costs of treatments, an ageing population and several other factors. This means that even in order to maintain the current level of care and services provided for free by the NHS, spending on the NHS would have to increase. With that in mind, which, if any, of the following would you most like to see?

BASE: ALL RESPONDENTS

	GENDER		AGE						SOCIAL GRADE				WORKING STATUS			ETHNICITY

Table 28

JU03 - Many experts argue that it is becoming more expensive to fund the NHS because of increasing costs of treatments, an ageing population and several other factors. This means that even in order to maintain the current level of care and services provided for free by the NHS, spending on the NHS would have to increase.

With that in mind, which, if any, of the following would you most like to see?
