Q. Thinking about your country, do you agree or disagree with the following statements?

People should be able to take refuge in other countries, including in Australia, to escape from war or persecution.

Most foreigners who want to get into my country as a refugee really aren't refugees. They just want to come here for economic reasons, or to take advantage of our welfare services.

Most refugees who come to Australia will successfully integrate into their new society.

Refugees make a positive contribution to Australia.

We must close our borders to refugees entirely – we can't accept any at this time.
