Q118. How strongly, if at all, would you support or oppose mobile phone service providers giving the Government people's mobile phone roaming data for each of the following reasons? - Summary

All adults aged 18-75 in Great Britain

	12116. How strongly, if at all, would you support or oppose mobile phone service providers giving the Government people's mobile phone roaming data for each of the following reasons?	So the Government can track people who have been diagnosed with the Coronavirus.	So the Government can find out if the public as a whole are following social distancing and lockdown rules that are in place and decide if more rules are needed.	So the Government can find out how many British citizens are currently abroad, and where they are, and penalise or fine those who do not follow them.
