

Every year, the Government of Canada gives out hundreds of millions of dollars' worth of contracts for security services to hire security guards for federal buildings and sites, etc. Please rate the following factors in terms of whether they are important factors that should be considered in awarding contracts for these services.

Commissionaires (formerly known as The Corps of Commissionaires) is a non-profit Canadian security organization that provides security guards. It was established in 1925 and modeled after the British Corps of Commissionaires (which has since become a for-profit entity). Part of the mission of the various Corps organizations was to provide employment to veterans returning from war. Providing employment for veterans of the Canadian Armed Forces, the Royal Canadian Mounted Police, and their families is still part of Commissionaires' mandate. Today, Commissionaires employs 22,000 people, of whom 5,000 (23%) are veterans. Before today, were you aware of the history of Commissionaires?

Since 1945, the Government of Canada has granted Commissionaires a "right of first refusal" on all Government contracts for guard services. This means that Commissionaires must turn down a contract before it can be offered to any other security guard suppliers. To what extent do you support or oppose the idea of the federal government giving uncompleted contracts to Commissionaires?

The following statements relate to the practice of offering Commissionaires right of first refusal on all Government of Canada security contracts. For each statement, please indicate whether knowing this information makes you more likely to support the idea of Commissionaires having a right of first refusal, more likely to oppose the idea of Commissionaires having a right of first refusal, or whether the statement has no impact on your view. - Because of their right of first refusal, Commissionaires can charge 15% above other security providers' average rates. This costs Canadian taxpayers approximately \$50 Million additional per year.

The following statements relate to the practice of offering Commissionaires right of first refusal on all Government of Canada security contracts. For each statement, please indicate whether knowing this information makes you more likely to support the idea of Commissionaires having a right of first refusal, more likely to oppose the idea of Commissionaires having a right of first refusal, or whether the statement has no impact on your view. - The Right of First Refusal guarantees a constant stream of work that provides employment to some 5,000 veterans.

Some people say that ... Government giving the Right of First Refusal to one company is the best way for the Government to support veterans in their transition to civilian life Other people say that ... There are better ways for the Government to support veterans in their transition into civilian life than giving the Right of First Refusal to one company. Which point of view is closer to your own?
