REFUGEES9. The UK Government has recently introduced a policy in which some people who enter the UK to seek asylum, by coming across the Channel without prior permission, will be sent to Rwanda without the UK assessing their claim. Those sent to Rwanda can apply for asylum there through the Rwandan asylum system and will not be eligible to return to the UK. On balance, to what extent, if at all, do you support or oppose this policy?

REFUGEES9. The UK Government has recently introduced a policy in which some people who enter the UK to seek asylum, by coming across the Channel without prior permission, will be sent to Rwanda without the UK assessing their claim. Those sent to Rwanda can apply for asylum there through the Rwandan asylum system and will not be eligible to return to the UK. On balance, to what extent, if at all, do you support or oppose this policy?
