

IPSOS AFFLUENT SURVEY

Affluent Consumption Tracking Database

THE LARGEST & LONGEST RUNNING
SURVEY OF AFFLUENT AUDIENCES

→ Running for 50 years, Ipsos Affluent Survey is the most in-depth tracker on affluent consumers, providing an unparalleled view into their attitudes, preferences and consumption behaviors across multiple categories including technology, home, lifestyle/leisure, media & content consumption, sports fandom, finance, and many more topics.

HOW IT'S USED

Designed to help businesses understand, reach and engage with the most important consumer segment in the U.S. – affluent Americans.

Although only 20% of the population, they control almost three-quarters of the wealth and outspend non-affluents by more than two-to-one.

Insights from the study will illuminate your brand strategy through: Market Sizing, Segmentation, Profiling, A&U, Brand Positioning & Strategy, Content/Ad Development, Data Append, Media Planning, and Digital Audience Activation
